VEGETINE

VEGETINE has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

SHE RESTS WELL.

SOUTH POLAND, Me., Oct. 11, 1876.

MR. H. R. STEVENS:

Dear Sir—I have been sick two years with the liver complaint, and during that time have taken a great many different medicines but none of them did me any good. I was restless nights and had no appetite. Since taking the Vegetine I rest well and relish my food. Can recommend the Vegetine for what it has done for me. Yours respectfully,

MRS. ALBERT RICKER.

Witness of the above,
Mr. Geo. M. Vaughan, Medford, Mass.

VEGETINE.

Thousands will bear testimony (and do it voluntarily) that Vegetine is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is as many have called it, "The Great Health Restorer."

SAFE AND SURE.

MR. H. R. STEVENS:

In 1872 your Vegetine was recommended to me, and yielding to the persuasions of a friend, I consented to try it. At the time, I was suffering from general debility and nervous prostration, superinduced by overwork and irregular habits. Its wonderful strengthening and curative properties seemed to affect my debilitated system from the first dose, and under its persistent use I rapidly recovered, gaining more than usual health and good feeling. Since then I have not hesitated to give Vegetine my most unqualified indorsement as being a safe, sure and powerful agent in promoting health and restoring the wasted system to new life and energy. Vegetine is the only medicine I use, and as long as I live I never expect to find a better.

Yours truly, W. H. CLARKE,
120 Monterey Street, Allegheny, Pa.

VEGETINE.

VEGETINE thoroughly eradicates every kind of humor, and restores the entire system to a healthy condition.

The following letter from Rev. G. W. Mansfield, formerly pastor of the Methodist Episcopal Church, Hyde Park, and at present settled in Lowell, must convince every one who reads this letter of the wonderful curative qualities of Vegetine as a thorough cleanser and purifier of the blood:

HYDE PARK, Mass, Feb. 15, 1876.

MR. H. R. STEVENS:

Dear Sir—About ten years ago my health failed through the depleting effects of dyspepsia; nearly a year later I was attacked by typhoid fever in its worst form, it settled in my back and took the form of a large deep-seated abscess, which was fifteen months in gathering. I had two surgical operations, by the best skill in the state but received no permanent cure. I suffered great pain at times and was constantly weakened by a profuse discharge. I also lost small pieces of bone at different times.

Matters ran on thus about seven years, till May, 1874, when a friend recommended me to go to your office and talk with you of the virtue of Vegetine. I did so, and by your kindness passed through your manufactory, noting the ingredients, etc., by which your remedy is produced.

By what I saw and heard I gained some confidence in Vegetine.

I commenced taking it soon after, but felt worse from its effects; still I persevered and soon felt it was benefiting me in other respects. Yet I did not see the results I desired, till I had taken it faithfully for a little more than a year, when the difficulty in the back was cured, and for nine months I have enjoyed the best of health.

I have in that time gained twenty five pounds of flesh, being heavier than ever before in my life, and I was never more able to perform labor than now.

During the past few weeks I had a scrofulous swelling as large as my fist gather on another part of my body.

I took Vegetine faithfully and it removed it level with the surface in a month. I think I should have been cured of my main trouble sooner if I had taken larger doses, after having become accustomed to its effects.

Let your patrons troubled with scrofula or kidney disease understand that it takes time to cure chronic diseases, and if they will patiently take Vegetine, it will, in my judgment, cure them.

With great obligations I am,
Yours very truly,
G. W. MANSFIELD,
Pastor of the Methodist E. Church.

GENERAL NEWS.

FROM WASHINGTON.

ANOTHER INTERVIEW BETWEEN THE PRESIDENT AND SENATOR BLAINE.

CHARGED WITH DISHONESTY.

GENERAL AND PERSONAL.

WASHINGTON, May 22.

District Attorney Wells has brought suit against Austin Brown, formerly of Maine, for $25,000, on account of the collection from the government, of a claim, which, it is asserted, was never due.

Hon. N. B. Judd, former United States minister to Berlin, is a candidate for the Chicago collectorship of customs.

Gen. Logan has arrived here, it is said in connection with suggestions that he may receive a foreign mission.

Gen. Joe Johnson is suggested as probable nominee for governor of Virginia by the administration party. Johnson is thoroughly in favor of the president's policy and was seriously considered for a cabinet position.

A number of persons connected with the late Chamberlain government in South Carolina are applicants for federal office. An attempt will be made to remove Worthington, collector at Charleston, who is closely identified with Senator John P. Patterson.

It is said that Secretary Evarts does not intend to appear again in court, and that his recent argument before the New York court of appeals was due to long standing engagements.

A FATAL SHIP LAUNCH.

MANY PERSONS KILLED AND WOUNDED.

A SICKENING SPECTACLE.

CHESTER, Pa., May 22.

The iron steamship Saratoga was to be launched at Roach's ship-yard this morning, at nine o'clock, but for some reason she started before the time fixed, and before the workmen were notified. Some forty of them were under the vessel and a number were killed and injured. The scene after the vessel had left the ways was most frightful and sickening. The bodies of the dead were scattered in every direction. Two were cut in half, others had arms and legs severed, and everything was covered with blood. The excitement was intense, and in a short time the yard was thronged with people.

From Another Source.

This morning the Saratoga, a large iron steamship which was to be launched at Roach's ship yard, started from its blocking sooner than was expected, killing and wounding many persons. Six dead bodies have been removed.

The ship-yard is thronged with friends and relatives of the victims, and presents a very distressing scene.

FROM NEW YORK.

THE LOCAL MONOPOLY OF RAILROADS.

BANK CAPITAL TO BE REDUCED.

The Local Monopoly in a Quandary.

NEW YORK, May 22.

After business hours yesterday afternoon the fact became known that the coal companies were not actually unanimous in an agreement to suspend mining. The resolution adopted was conditional upon the approval of the Reading company. It is now said that Gowen, president of the Reading, really telegraphed from London an emphatic refusal of the proposition last Friday, as reported at the time, but subsequently telegraphed a request for postponement of action until his letter upon the subject is received here. So the whole matter remains exactly where it stood before.

Cincinnati Southern Railroad.

Cincinnati advices report considerable excitement there in consequence of a bold, strategic movement of capitalists to obtain control of the Cincinnati Southern Railroad. The road has been gobbled up, and the city, which advanced a heavy sum towards its completion, will never see any return for the money expended. It is said Rufus King of Baltimore will be appointed president of the road.

Pool Sellers Indicted.

The Baltimore grand jury has been ordered to indict the pool sellers. Great excitement exists among members of the Maryland Jockey Club, and the law will be tested.

Bank Capital Reduced.

It is announced that the Bank of Commerce here proposes to reduce its capital from ten to two millions. The stock has advanced from 106 to 110. Through a reduction in capital, heavy taxation is avoided.

Philadelphia Exhibition Closed Sundays.

The board of directors of the Philadelphia permanent exhibition have resolved to close the buildings on Sunday. This action has caused great dissatisfaction and it is possible will injure the exhibition considerably. Thus far the receipts have been sufficient to more than pay the running expenses.

Sale of a Railroad.

The Hannibal & Naples Railroad, a property consisting of forty-seven miles, but no rolling stock, situated in Pike County, Ill., is to be sold out by auction here today under foreclosure. The bids will close late this afternoon. This road was formerly leased by the Toledo & Wabash company, but the foreclosure of the latter terminated the lease.

The first mortgage bonds of the Hannibal & Naples amount to $675,000. It is probable the property will be bought in by the counsel who represent the second mortgage bondholders, for about $250,000. The second bondholders formed a combination for this purpose some time since.

FLOODS IN KANSAS.

Serious Damage to Railroads Near Lawrence.

LAWRENCE, Kas., May 22.

The heavy rains of the past week have raised the streams in this vicinity to an unusual height. The Kansas river at this point is higher than since 1858. The Atchison, Topeka and Santa Fe Railroad is under water west of this city for a quarter of a mile. No trains passed yesterday. A wash-out occurred on the Kansas Pacific, a mile west of this place, about one hundred feet of the track is carried away. A bridge further west went down last evening and an accommodation train is caught between the breaks on both roads.

Further Particulars—General Destruction of Bridges.

TOPEKA, Kan., May 22.

No trains passed west of Manhattan on the Kansas Pacific Railroad, or west of Emporia on the Santa Fe road. Eastward bound trains on the two roads combined here, and went over the Kansas Pacific road to Perry, where they found they could not get through and came back. The Cottonwood and Arkansas rivers have overflowed, and bridges on all the streams are carried away.

THE EASTERN WAR.

PROTECTION OF CONSTANTINOPLE AND THE SUEZ CANAL.

REPORTED AGREEMENT OF ENGLAND AND RUSSIA.

PARIS, May 22.

Le Temps, which has occasional communications from the Russian agency, says—

Our private information confirms the fact that a note has been communicated to the St. Petersburg cabinet by the English embassy on questions connected with Constantinople and the Suez Canal, now and hereafter. This document is couched in conciliatory terms. We are assured that an understanding is already arrived at between Russia and England, both in substance and form as regards the Suez Canal, and in substance as regards Constantinople.

Watching the Russians.

CONSTANTINOPLE, May 22.

The deputies decide that Minister of War Redie Pacha shall at once proceed to the scene of hostilities. The Russians show signs of crossing the Danube.

Rumored Defeat of the Turks near Kars.

LONDON, May 22.

The Standard's dispatch dated Erzeroum report that the Russian centre has driven the Turks from their positions at Karadrhouran, a village near Kars.

The Insurrection at Abchasia.

CONSTANTINOPLE, May 22.

The Abchasians are in full insurrection. Arms have been distributed to them. The sultan has ordered the purchase of twenty thousand revolvers to be paid for from his private purse, for distribution in the Caucasus.

English Troop Ships Ready for an Emergency.

LONDON, May 22.

The Standard reports orders received at Portsmouth that the five great Indian troop ships lying idle in the harbor in consequence of the close of the season for sending relies to India, are not to be subjected to any alteration which cannot be completed in a few days, so they may be ready to proceed to sea if required.

The Advantage Gained by Russia at Ardahan.

The Times Vienna correspondent remarks that the fall of Ardahan, besides securing to the Russians their position before Kars, opens out a new line of operations, either against Kars or Erzeroum.

Action of the Turkish Ministerial Council.

The council of ministers at Constantinople, on Sunday, determined to send all reinforcements still arriving in Constantinople to Batoum and Erzeroum. The authorities at Constantinople seem to overlook the fact that these troops, making their way to Kars and Erzeroum, would have to break through the Russian division barring the way at the Tschuruksou. Indeed, the advance of the Russians against Batoum seems to have been undertaken with the aim of locking up there thirty-four battalions of Turks, preventing them or any other reinforcements from getting possession of the Tschuruksou line to Erzeroum or the other threatened points.

Action in Germany.

NEW YORK, May 22—11.40 A. M.

A London despatch says stocks are depressed and prices have declined on a report that Prince Bismarck, by an imperial order, has been recalled to Berlin.

A Berlin despatch says Bismarck has arrived there in response to a summons from Emperor William. A ministerial council is being held today, the emperor presiding. It is expected important resolutions regarding the policy of Germany towards France will be decided.

FRANCE.

The Political Excitement Subsiding.

PARIS, May 22.

There is less political excitement here, and all is quiet. Fresh prefectorial changes made by Minister Fourton, are announced.

FOREIGN NEWS BY CABLE.

The Action of the Northumberland Colliers.

NEW CASTLE, May 22.

The meeting held yesterday to count the votes of the Northumberland colliers, whether the dispute with the masters be referred to arbitration, was an overwhelming majority in favor of the strike. The Northumberland colliers number twenty-five thousand.

Bismarck's Recall to Berlin.

BERLIN, May 22.

Prince Bismarck has arrived there and would stay a few days previous to going to Kissingen. A later telegram states that the arrival of Bismarck in Berlin is not the result of any sudden determination, nor is there any special political reasons for it, it having been arranged beforehand as part of the general programme of his journey.

The Greek Bandits Released by Turkey Forced Back on Turkish Soil.

ATHENS, May 22.

The Greek brigands released by the Turkish authorities at Janina and entered Greece, have been forced to return to Turkish territory.

Spanish Conscription in the Basque Provinces.

LONDON, May 22.

A special from Madrid says a decree orders the Basque provinces to provide 20,000 conscripts this year, but Alava and Guipuzcoa are to retain a portion of the fueros, which Biscay alone loses entirely.

MEXICAN AFFAIRS.

Dispatches from New York for Diaz; Recruiting in New Orleans for Lerdo.

NEW YORK, May 22.

A New Orleans special says there has been considerable excitement here for the last few days relative to Mexican affairs. A Mexican steamer which was to have left Sunday morning, and which was detained by a dispatch from Washington, left last evening with dispatches from the Mexican minister to Diaz. Consul Avendano acknowledges these dispatches came from New York, where the minister is with Lerdo, but refuses to give their import.

It is stated that efforts have been made to recruit men among the foreign population here for Mexico in the name of President Lerdo, the men to go to San Antonio, Texas. Col. Price, of the Eighth United States Cavalry, is here on his way to join his regiment on the Rio Grande, his leave of absence having been curtailed.

General Ord Consulting with Sheridan.

NEW YORK, May 22.

A Chicago dispatch says that Gen. Ord arrived here from Mexico last night and has passed most of the day in consultation with Gen. Sheridan upon the affairs of the Mexican border. In view of the unsettled condition of things, resulting from repeated revolutions and raids, and the anticipated Lerdo expedition, Gen. Ord urged the propriety of

The Adoption of a New Policy

on the part of the United States authorities. He says that these marauders should be punished wherever found and dealt with just as the Sioux are treated in the north. He wants Gen. Sheridan to give him power to follow the lawless Mexicans across the border, and not appeal to the central government, to which they owe no allegiance. It is asserted in military circles that this is to be

The Future Policy of our Government,

and raids must cease. The United States troops are to be slightly augmented upon the Rio Grande.

Items and Rumors.

A train from the City of Mexico for Vera Cruz was stopped by robbers who, the conductor says, took $33,000 in transit for Europe. His story is discredited and he and the baggage-master have been arrested.

Diaz has expressed an intention to order the war department to hold all haciendaders and officials personally responsible for crimes committed in their vicinity.

It is reported that the acknowledgment of Diaz by foreign powers would follow his acknowledgment by the United States. France and England would then be invited to renew relations.

Gen. Jimenez has been relieved of the State Governorship and all military command for the outrage on the American Consul at Acapulco.

Four thousand troops marched to the northern frontier where Escobedo is expected to commence a revolution.

Dr. Schliemann is besieged with letters from all parts of the world, and as most of them come from the United States, it may be well enough to state that as yet it is impossible for those interested to obtain more particulars than have been supplied to the public journals. No book or pamphlet has been issued in Europe concerning the discoveries, and no man can yet venture to deal with the subject. Professor Newton of the British Museum, who has just returned from Greece, is set down for several lectures at the Royal Institution, and as he has examined the objects in company with Curtius and other Germans, his report will be the first of importance save that of Schliemann himself. At present it is only known that he believes the majority of objects traceable to Homeric times, and some of the human forms to bear signs of early Indian workmanship.—[M. D. Conway's letter.

Messrs. Hook & Hastings, the well-known organ builders of Boston, have just signed the contract for supplying the great organ to the new Springer Music Hall of Cincinnati, which is to be one of the finest music halls in the country. The organ is to be the largest in America and one of the three or four largest in the world—larger than the Music Hall organ in Boston and those in the Boston Cathedral and Plymouth Church, Brooklyn. It will have 6200 pipes (the centennial organ of the same builders, had 2700), and is to be finished in time for the May festival of next year.

THE DAY.

Col. T. W. Higginson lectures on Woman Suffrage in Providence tomorrow.

The Bank of Commerce in New York proposes to reduce its capital from $10,000,000 to $2,000,000.

Alexander H. Stephens calls upon the democrats to endorse and support the policy of President Hayes.

The excitement in France is subsiding and there will probably be no further trouble in that country growing out of the late unpleasantness.

The cable gives us a formidable batch of rumors and guesses concerning the Eastern war, with but very little reliable news. The campaign, as fought by the newspapers, is a vigorous one.

The Kuklux in the border counties of Missouri and Arkansas have taken to defending illicit distilling. They "kill, whip or otherwise punish all persons who oppose them and show any disposition to enforce the laws."

The Chicago papers are well pleased with the reduction in the number of pension agencies, only it was ridiculous, of course, to abolish the agency at Chicago. This is the way every city that has lost an agency feels.

The London Daily News's Bucharest despatch reports that the Turks crossed the Danube above Nikopolis on Sunday, and made three attempts to construct a battery at Islatz, but were repulsed by the Roumanians.

Gen. Joe Johnston, the ablest officer in the rebel army, is talked of as the administration candidate for governor of Virginia. Gen. Johnston is an ardent supporter of President Hayes and believes his southern policy to be in the interest of the whole country.

Samuel J. Tilden has just said to a friend that he knew he was elected to the presidency, but he refrained from prosecuting his claim for fear it might produce civil war. He thinks there is a chance for him in 1880 as he predicts a "clean sweep" for the democracy at the next trial.

The Boston Herald says eighty-five years ago Bostonians complained of high taxes as they are doing now. But the city grew in spite of the taxes. The main thing is to get a proper return for the money expended, and honest, wise and capable officials can do more than a low tax-rate to promote a city's prosperity.

Ex-Governor Hendricks has been interviewed by the Cincinnati Enquirer. He says the "policy adopted by Hayes in regard to the South is identical with that foreshadowed by Tilden. Mr. Hayes saw what the country demanded. He saw that the people were uneasy, that they were galled by a military yoke and that they were not likely to submit to this yoke much longer."

The Baptists are holding their national conventions in Providence during the present week. The attendance of the leading men of the churches both lay and clerical is large, and the services of an interesting and important character. The Baptists are now the second denomination in size in the United States having 23,000 churches and about 2,000,000 communicants. The meetings are held in the home of Roger Williams and the old First Baptist meeting house is crowded to excess at every gathering.

Things look rather squally along the Mexican frontier. Gen. Sherman and Gen. Ord think it right and proper for the United States troops to preserve the peace even if they have to chase the robbers into Mexican territory. In that they are undoubtedly right. If the Mexican government cannot keep her outlaws under control she ought to be thankful to have some one else do it for her. At all events it is the duty of our government to protect the lives and homes of our citizens against marauders.

The remains of Commander J. D. Marvin, U. S. N., late commanding U. S. S. Alert, have been brought from Yokohama in charge of Lieut. Livingston, his late executive officer, and will be interred in the Island Cemetery at 12.30 on Saturday the 26th inst. As the usual naval and religious services were held in Japan there will be only a short service at the grave. The board of inquest convened on the occasion of the death of Commander Marvin, find: The death occurred while laboring under an attack of melancholia, brought about by anxiety in the performance of his duties as commander of the Alert. Admiral Reynolds adds, "Commander Marvin has been the victim of his own illusions in regard to any matters that have occurred on board, and in a normal state of mind would not have heeded the things he seems to have brooded over until he became distracted. As it is, his pure and honorable reputation remains unspotted to the last moment of his life. We all feel the keenest regret for his unfortunate fate and mourn over the loss to his friends and to the country of an officer of such high intelligence and of so pure a character."

We have received a copy of the speech of Hon. Wm. P. Sheffield delivered in the house of representatives March 23 on the question of Woman Suffrage. It is a brief, but clear and concise argument against the proposed innovation, and though we are not prepared to adopt it as a whole, the positions taken are worthy of careful consideration. Mr. Sheffield speaks in no measured terms in condemnation of the positions taken by the suffragists. As to the responsibilities involved he says:

The right, or privilege of voting, carries with it the right to be voted for, and of being elected, and the duty of serving in any office to which one may be elected, from a night watchman to a colonel of militia.

The trusts imposed upon electors, rightly understood and properly appreciated, are very onerous, and before these burdens are imposed upon the women of Rhode Island, I think we should at least know that they desire to assume them.

On the question of taxation without representation he says:

"Taxation without representation," in the sense used by this committee, must of necessity imply representation according to taxation; and according to this theory, if it takes $134 worth of property to qualify me to vote upon all questions, I ought to have as many votes as I have $134 worth of property, otherwise all of my taxable property in excess of $134 is taxed without representation, and the men who hold less property than I do should not vote to impose taxes upon the property which I hold in excess of theirs. Again, if the committee properly interpret this axiom of taxation and representation, the property within the state held by persons residing without the state, the property of minors, and of persons of unsound mind should not be taxed at all."

Mr. Sheffield concludes with the following propositions which he claims to have established, viz:

1st. That the argument of the report derived from the axiom of taxation and representation being correlative rights and duties, is based upon an erroneous interpretation of the axiom.

2d. That voting is not a natural right, but a public trust, to be conferred by society upon such of its members as it may deem it to be for the interest of society to confer it.

3d. That women are not fitted and were not designed by nature to discharge the duties devolving upon voters and office holders, and that it is not consonant with the natural, or revealed law, or with the best interests of society, that this burden should be imposed upon the women of the state.

THE REFORM CLUB AND TOBACCO.

To the Editor of the Daily News:—

It was with no little regret that I witnessed a large portion of the time at the meeting of the Reform Club, last evening, devoted to the discussion of the tobacco question. I am not a user of tobacco in any form, and would be glad to see the vile weed expunged from the community. But it is not, in my opinion, the province of a temperance reform club to labor for its extinction. There are many men who are strict teetotallers and yet are users of tobacco, and those should not be held up to ridicule and censure in a meeting convened for altogether another purpose. The chairman of the meeting should assert his prerogative and rule such discussions out of order. Let us stick to our text of eternal enmity against alcoholic drinks and leave the warfare against tobacco to societies formed for that especial purpose.

HOWE'S LONDON CIRCUS.

The Baltimore Gazette says of a recent exhibition that it has been a long time since as good a street parade as that made by the London circus has been witnessed in that city. A very pleasing feature was the men in grotesque costumes riding on the wagons. The grand globe-wagon, the first of its kind in the country, the ponies, the chariot drawn by four horses abreast, and the herd of elephants came in for a large share of public approval. The menagerie is a good one. The circus was quite fine, and, notwithstanding the unfavorable weather, rain threatening every minute, the performances afternoon and evening were very satisfactory. The little O'Brien boys, about eight years old, did wonders on the trapeze, and the bare-back riding of Mlle. Dockrill called forth unbounded applause. There were probably twenty-five hundred persons present in the afternoon and four thousand at night. Many were turned away from the last performance, being unable to gain admission. The ticket office closed in an hour and ten minutes from the time of opening, having sold out all the seats and most of the standing-room.

Some thirty other cases on the docket were passed for the present.

Immediately after the coming in of the court at three o'clock, the first jury was called to the panel, and the case of James T. Butterick against W. Milton Farrow was opened to them by Mr. Gilpin, counsel for plaintiff, Mr. Peckham appearing for the defence.

After hearing the opening and the testimony of the plaintiff, Mr. Peckham said the case had not been made out, and the jury retired at 3.47 without charge, and soon returned into court with a verdict for defendant. It was an action brought to recover rent for an unexpired lease, which plaintiff set up to be due him from the defendant, but by some omission on the part of the plaintiff there was a failure to establish his claim, and hence the verdict.

The case of Luther Bateman and wife against James F. Leviness was opened to the second jury by Mr. Honey, and after the opening the defendant submitted judgment for $162.60 and costs. This was also an action for recovery of money due for rent, and was commenced by the attachment of personal property.

At five o'clock the case of Richard Lawton against Philip Leahey was opened to the first jury, by Capt. Honey for the plaintiff, Mr. Sheffield appearing for the defence.

This is an action for slander, the plaintiff's allegation being that the defendant branded him as a thief.

The grand jury came in at 5.30 o'clock and made but one presentment, and that was against Darius Manchester of Tiverton for the killing of Philip Durfee, by stabbing him in the right side with a knife. The charge is manslaughter. Manchester was arraigned and pleaded not guilty.

N. Hathaway, Esq., of the firm of Hathaway & Cummings, of Fall River, appeared for the defence, and the trial was set down to take place on Wednesday the sixth day of June next, when there will be an adjourned session. Manchester recognized with Samuel Negus and Capt. Joseph Church as sureties in the sum of $5000 for his appearance.

At 6.20 the court was adjourned to Wednesday morning at 9 o'clock, the Lawton-Leahy slander case still pending.

WEDNESDAY MORNING—THIRD DAY.

The court came in at nine o'clock this morning.

After the opening of the court, Joseph W. Church and Samuel Negus came into court, with their principal, Darius Manchester, for whom they were yesterday recognized as sureties in the sum of $5000 for his appearance for trial on the sixth day of June next, and delivered him up in open court, as Negus wanted to be relieved as surety; whereupon Capt. Church assumed the responsibility *solus*, and Manchester is again at large to await the occasion of his trial for manslaughter.

The case of Richard Lawton against Philip Leahey for slander pending at the hour of adjournment last evening, was resumed this morning. The time of the court was occupied by the testimony for the plaintiff and the putting in of cases adjudged to be in point, as authorities bearing on the case on the plaintiff's side, by Capt. Honey, until 10.20, when a discussion in regard to some of the legal bearings of the case, took place between the court and the counsel for the defence, when Leahy, the defendant, was called to the stand, and after his testimony Mr. Sheffield made his argument for the defence, closing at 11.45.

Mr. Honey then made his argument for the plaintiff closing at 12.20, when Judge Burgess charged the jury closing at 12.40 when the jury retired with the case.

The main facts elicited in this trial seem to be that Leahey last summer was in the employ of Lawton and Leahey could not get a settlement with Lawton and they had several attempts in which there were some words between them, and among them were those upon which this action is brought, which Leahey applied to Lawton calling him a thief. This the defence do not deny, but aver that the words, under all the circumstances, were not malicious, nor spoken with any intention of publicly injuring Lawton, but grew out of the controversy about the wages, and referred to some transaction known to the parties themselves.

The plaintiff contends that the words "You are a thief," were spoken in the presence of four other persons, at least without any qualification, and tended greatly to the injury of the plaintiff and are malicious and actionable, and that the injury is aggravated by an attempt to prove the allegation in court, with additional charges of dishonesty and perjury.

Leahy commenced an action for his wages against Lawton, and Lawton commenced this one against Leahy for slander, laying his damages at five hundred dollars. The court charged that the plaintiff is entitled to some damages, to be fixed by the jury, unless the defendant is proved to be justified in the use of the objectionable words, upon which the action is brought.

At 1.30 the jury in this case came into court and rendered a verdict for plaintiff, assessing damage in the sum of ten dollars.

The court was then adjourned to three o'clock this afternoon.

Seldom has a more thrilling story been recorded than the recent awful experience of the Welsh miners. On April 11, by some strange accident, a flood of waters suddenly inundated the Troedyrhiw Colliery. The miners fled for their lives, but fourteen were found to be missing. As it afterward appeared, four of these were probably killed immediately; but ten were imprisoned—five in one passage and five in another—with a wall of coal on all sides, except one, where the water stood, stayed in its rushing course by the compressed air. Prompt efforts were made to rescue the sufferers, although all the galleries were flooded. Faint knockings guided the explorers to that part of the pit where one party of miners were imprisoned. Men worked with desperate energy in deep water, but with such effort that the next day an opening was made into the chamber where the miners were. Instantly a terrific explosion of the compressed air occurred, and one of the imprisoned miners was hurled through the opening, dead. The others were brought out alive. Again strong hands and willing hearts set to work, though with little hope of releasing the other miners alive. Not until April 16 was the water so reduced by pumping as to render other work possible. A faint knocking again guided those cutting a passage, and finally the rescuers were able to communicate with the entombed. Shouting at the top of his voice, a miner asked, "How many of you are there?"

The reply came back, "Five."

"How have you lived?"

"By eating candles. Do make haste."

On the morning of April 20 a message came up from the pit to the excited crowd gathered around that the men were about to be brought out alive. A ringing cheer reechoed through the village. As the last man who had been entombed so many days was being carried into the hospital, a message of anxious inquiry was received from the Queen—for the dreadful calamity had stirred the sympathies of the whole British nation, from the Queen to her lowest subject. It was about noon on the tenth day after the inundation that this wonderful rescue was accomplished. At the last accounts the miners, although feeble and suffering in various ways from their severe experience, were slowly regaining their strength. Contributions have been sent from the Queen and from many sympathizing individuals for the benefit of the rescued miners and those who, by the inundation, are thrown out of employment.

BUSINESS NOTICES.

NERVES THAT QUIVER,

Heads that ache, stomachs that inflict dyspeptic torments, muscles and joints racked with the rheumatism, are infallibly restored to health by the celebrated elixir, Hostetter's Stomach Bitters, a medicine prescribed by physicians, possessing infinite purity, and which no one takes in vain who is afflicted with any of the numerous complaints to which it is adapted. It frequently happens that so-called remedies fail to produce a permanent effect. This is because they are merely palliatives, and therefore do not remove the cause of the maladies, whose symptoms they after a time cease to ameliorate. This is notably the case with opiates and sedative drugs. It is not, however, with Hostetter's Bitters, which are a searching specific that conquers the disease as well as banishes its indicia.

AUGUST FLOWER.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint.

More than seventy five per cent. of the people in the United States are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heartburn, Water-brash, gnawing and burning pains at the pit of the Stomach, Yellow Skin, Coated Tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c. Go to your druggist, James H. Taylor and get a 75 cent bottle of August Flower or a Sample Bottle for 10 cents. Try it—Two doses will relieve you.

To all, particularly invalids, spring is a trying season. Indications of sickness should at once be attended to. Fatal diseases may be caused by allowing the bowels to become constipated, and the system to remain in a disordered condition, until the disorder has time to develop itself. An ounce of prevention is worth a pound of cure, is an old and truthful saying. Therefore, we advise all who are troubled with the complaints now very prevalent—headache, indigestion, disordered liver, want of appetite, nausea, or feverish skin, to take, without delay, Schenck's Mandrake Pills. We know of no remedy so harmless and decisive in its action. It at once strikes at the root of the disease and produces a healthy tone to the system. People never need suffer from any disease arising from a disordered condition of the liver if they would take this excellent medicine when they feel the first indications of the malady. Families leaving home for the summer months should take three or four boxes of these pills with them. They have an almost instantaneous effect. They will relieve the patient of headache in one or two hours, and will rapidly cleanse the liver of surrounding bile, and will effectually prevent a bilious attack. They are sold by all druggists.

ROOFING PAINTS

WE DESIRE TO CALL YOUR ATTENTION TO OUR

Fire and Water-Proof Paints

AND

ELASTIC WATER-PROOF CEMENTS,

FOR

SHINGLE and TIN ROOFS.

These paints last longer and are more durable than others in use, requiring only one coat. These paints are especially adapted to old roofs. A coating of cement and paints renders them serviceable for eight years longer, and adds very materially to the looks of buildings. They are cheap, durable and ornamental. We employ none but experienced workmen and in every case we warrant satisfaction.

We also apply our

Patent Mineral and Ironsard Roofing, FOR FLAT AND STEEP ROOFS.

These roofings take the place of slate or gravel, and do not weigh only one to one and a half pounds to the square foot.

We warrant these articles and can furnish satisfactory references to any person requiring them.

J. H. MARTIN, Agent.

Orders left at box G, Daily News office, will receive prompt attention. my17

MAYOR'S OFFICE, NEWPORT, R. I., May 19th, 1877.

NOTICE.—In view of the approaching Election day, and the subsequent national anniversary, I deem it important that some measures having reference to the safety of property throughout the city should be taken against the liability to accident from fire-works and Chinese crackers, and other explosives in popular use on such occasions, any accident from this source in the present unusually dry and combustible condition of things being likely to prove a very grave calamity.

I therefore advise all persons to observe both the LAW OF THE STATE and the CITY ORDINANCE in such case made and provided, and REFRAIN FROM THE USE OF FIRE-WORKS OF ALL DESCRIPTIONS, and I urge upon the police of the city such watchfulness and care in the performance of their duty in this respect, that our citizens may feel secure from the evil consequences to be apprehended from a disregard of the law.

I would say that through the kindness of my friends, I have disposed of about 100 different vehicles the past few years having sold carriages to go to Providence, R. I., Stonington, Ct., Little Rock, Arkansas, Middletown, Portsmouth, Tiverton, Fall River, New Hampshire and various other places, all of which have proved as represented. To those having any House Painting, Graining or any other work, that they want done and are willing to pay a fair price to have the same done in a good and substantial manner, I shall be glad to give estimates, and will warrant all work done by me to be in every respect as represented. I return my thanks for the generous patronage which has been bestowed in the past and asked a continuance in the future. To my very numerous friends who have neglected to settle their bills for work done long ago,—if they will now respond by attending to them at once they will confer a great favor, as money is now very useful.

SUNDRIES.

The rabbit is not timid, but no cook can make it quail.

The man who puts on a spring coat with the most satisfaction is the house painter.—[Commercial Bulletin.

The prize dogs in New York are to be photographed. Dog cartes, we presume.—[Commercial Bulletin.

The Detroit Free Press mourns the decline of American genius, because no one invented a washing machine last week—the first omission for over two years.

"How Shall we Help Ourselves?" was the title of a recent lecture by a Boston lady. We should say with a spoon or fork if handy, if not, and nobody is looking, take your fingers.—[Commercial Advertiser.

"Susan," said the madame of a boarding school, "you say your young mistress wishes to absent herself from the class room this afternoon; is the reason for her staying away very urgent?" "Yes, mum, it is 'er gout."

Henry Watterson repudiates the dreadful proposition to turn Hayes out and put Tilden in." No back snatches for us,"he says, "but a broad look and a strong pull for next time." This is good—Stay! A strong pull at what, Mr. Watterson? Put down that jug and give us a frank answer.—[Rochester Democrat.

A Kentucky dentist undertook to plug one of the back teeth of a favorite mule. He bored and bored until the drill struck something that seemed to lift the animal's soul right off its hinges. That's the way the coroner explained it, and since then a wild mule has been galloping up and down the country, seeking for fresh worlds to conquer.—[New York Weekly.

A DINNER IN SIBERIA.

A letter from Siberia says: "Our dinner party in the evening—and it was really a dinner party—was extremely merry. Each one laid his stores under contribution. Some brought out frozen bread, others frozen caviare, others frozen preserves, others again sausages, which could not be bent even if put against the knee and pulled with all the strength of both arms. Can you imagine, without laughing, the appearance presented of seven half-famished people sitting at a table with thirty different dishes before them, and unable to touch one of them except at the risk of breaking their teeth? Nothing could be done except to wait patiently for the dishes to be thawed. Gradually, as each article of food softens, faces brighten, and when at last a knife entered one of the dishes, there were shouts of triumph, which announced the beginning of the meal. At the close of the dinner we ate excellent fruit, which had been kept frozen. Throughout Siberia, as soon as very cold weather sets in, all fruits are placed out of doors with a northern exposure, that the sun may never touch them. They are frozen through and through, and retain their flavor as completely as if they had just been plucked from the tree. When placed on the table they are as hard as wood, and when they fall accidentally on the floor they made the same noise a wooden ball would make. The heat of the dining-room gradually softens them, and they re-assume their original form. While eating some game, one day, I, out of curiosity, asked how long it had been killed. I was told, 'over two months ago.' When cold weather sets in, nearly every butcher kills all the meat he requires during the winter. Fish become so solid that in all the markets they are seen leaning against the wall on their tails, no matter what their length or weight may be.

Newport Laundry.

—AND—

Steam Carpet Beating.

In Connection with the NEWPORT LAUNDRY, we have put up a patent

STEAM CARPET BEATING MACHINE

by which the Carpets are beaten on the back and brushed on the face. The dust and dirt as fast as beaten out of the fabric, are removed from the compartment where the carpets are beaten, by an EXHAUST FAN, which also removes and carries out of the room any moth or other larva which may be beaten out of the carpet with the dirt and dust, so that there is no possibility of their settling back on the carpet.

Prices for Beating Carpets:

Ingrain and Three Ply, 4c. per yard.
Brussels and Tapestry, 5c. per yard.
Velvet and Wilton, 6c. per yard.

As the machine is under cover, carpets can be beaten in stormy, as well as in pleasant weather.

ENGLISH AND RAG CARPETS WILL BE WASHED FOR 6 CTS. PER SQUARE YARD.

Manilla, Hemp or Rope Carpets thoroughly Cleaned for from 6 to 12 cents per yard.

☞ Orders may be sent by mail, directed to the Newport Laundry, given to the driver of the Laundry Wagon, or may be left with J. D. Richardson, 212 Thames Street, agent for Newport Laundry.

Miscellaneous.

CHILDREN TEETHING

MRS. WINSLOW'S

SOOTHING SYRUP,

For Children Teething,

greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to Your Infants.

We have put up and sold this article for years, and CAN SAY IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after years of experience, AND PLEDGE OUR REPUTATION FOR THE FULFILMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation has been used with NEVER FAILING SUCCESS in

Thousands of Cases.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels, and Wind Colic.

We believe it the BEST AND SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY AND DIARRHOEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle.

Be sure and call for

"Mrs. Winslow's Soothing Syrup,"

Having the fac-simile of "CURTIS & PERKINS" on the outside wrapper.

Sold by druggists throughout the world.

"A FASCINATING WORK ON AN ENTRANCING TOPIC."

HE WILL COME:

BY STEPHEN H. TING, Jr., D. D.

This work is not prophetical. It discusses the topic as a divine promise. Its plan is to follow the narrative of a Christian's experience of the revealed facts in the next dispensation. Yet it is full of bold and original thought, apt illustration, and forcible writing, and it is a work which no one who is "watching and waiting" for the Lord can afford to miss. 16mo., 216pp., $1.25 in cloth; $2.50 in Morocco. TO THE LOVERS of STEREOSCOPIC VIEWS.

THE ATTENTION of the public is invited to the following views from negative by J. A. WILLIAMS, which is believed to be the best and largest collection of the gems of Newport scenery ever offered.

The negatives are all carefully taken with the best materials and instruments and aim to present not merely patches of landscapes from points chosen at random as is the case with many others, but, views which shall combine within themselves all the best elements of a picture in the artistic sense.

We would call particular attention to our new cabinet size views taken the present season, 1876, which exhibit with all the fidelity of the stereoscope.

Parties who may wish to make presents to their friends abroad, or to carry home memento of Newport, cannot make a more acceptable choice than by selecting from the many beautiful views of Newport and surroundings.

Interiors and exteriors of houses taken to order. Also parties, horses, &c.
